FOR IMMEDIATE RELEASE

November 16, 2012

**Road and Lane Closure Report for the City of Norfolk
November 16, 2012 – November 23, 2012**

This report includes high impact new and ongoing road and lane closures in the Downtown area and throughout the City. Unless otherwise indicated, pedestrian access will be maintained. These closures are a result of permits issued through and coordinated by our Right-of-Way Division and are subject to change at any time.

SPECIAL EVENTS

Grand Illumination Parade, Saturday, November 17, 7 p.m.; **Parade route**: From Saint Pauls Boulevard, parade will proceed right onto E. Main Street, left onto Granby Street, left onto W. Freemason Street, left onto Boush Street, continue onto Waterside Drive, and conclude at Saint Pauls Boulevard. Additional street closures include Park Avenue from Holt Street to Main Street, Main Street from East Street to Park Avenue, and Water Street from Waterside Drive to Main Street. Starting at 5 p.m., all downtown streets will be under police control for entry to and from [garages, parking areas](#), The TIDE, and the interstate.

RESURFACING

Re-Paving Locations: Virginia Beach Boulevard from Scott Street to the bridge just before Jett Street; Hyde Circle, Latimer Circle, Craven Circle, Essex Circle, Pamlico Circle, Abingdon Circle, Lenoir Circle, Nansemond Circle, Wayne Circle, Giles Circle, Chatham Circle, Dare Circle, Wake Circle, Norview Arch, Nassau Avenue, Central Avenue, Wayne Crescent, Norland Circle, Norland Court, Stephan Court, Jonathan Court, South Avenue, Orange Street from the Dead End to Chesapeake Boulevard.

DOWNTOWN

Atlantic Street—Through mid-January, watch for intermittent parking lane and full street closures on Atlantic Street from the Main Street garage exit to E. Plume Street for [Slover Memorial Library](#) construction.

Boush Street—Through late November, watch for the full closure of Boush Street from Olney Road to Virginia Beach Boulevard including the Boush Street and Olney Road intersection for the [HRSD Ghent Area Sanitary Sewer Replacement Project](#). Traffic will be detoured to Granby Street and Duke Street.

Boush Street—Through late November, watch for the closure of Boush Street between W. Freemason Street and Greens Court for roadway repairs.

E. City Hall Avenue—Through mid-2013, one through lane will be closed on E. City Hall Avenue just before and after Saint Pauls Boulevard for construction of the new [Consolidated Courts Complex](#).

Downtown Streets—Through December, watch for intermittent lane closures between 9 a.m. and 3 p.m. on Boush Street, College Place, Granby Street, Tazewell Street, Plume Street, Charlotte Street, Bute Street, Freemason Street, Monticello Avenue, Duke Street, and Bank Street for utility work in manholes.

Hampton Boulevard – Through mid-December, watch for an eastbound, one lane closure on Hampton Boulevard coming out of the Midtown Tunnel.

Monticello Avenue—Through January, watch for intermittent sidewalk closures of Monticello Avenue southbound between Market Street and Tazewell Street for building repairs. A pedestrian detour will be in place.

E. Plume Street—Through mid-2014, the south sidewalk and parking lane on E. Plume Street between Atlantic Street and Selden Arcade will be closed for [Slover Memorial Library](#) construction. Pedestrians will be detoured to the north side of E. Plume Street. There will also be intermittent lane closures under flagger control in the same area.

Saint Pauls Boulevard—Through mid-2013, watch for the closure of an outside northbound lane between Waterside Drive and E. City Hall Avenue for construction of the new [Consolidated Courts Complex](#). Right turns from the Waterside Drive exit onto Saint Pauls Boulevard northbound will at times be prohibited during the afternoon rush hour. Off-duty Norfolk police officers will assist with traffic during peak hours. A detailed map of the lane closure is located at <http://goo.gl/maps/xBJH>. A pedestrian detour will also be in place on Saint Pauls Boulevard between Plume Street and E. City Hall Avenue during the construction.

CITYWIDE

26th Street—Through early December, watch for one-way traffic between Ruffin Way and Church Street for the [Villa Heights/Lindenwood PS8 Phase 6](#) project.

27th Street—Through early December, watch for one-way traffic between Ruffin Way and Church Street for the [Villa Heights/Lindenwood PS8 Phase 6](#) project.

W. 21st Street—Through late November, watch for alternating vehicle lane and sidewalk closures on 21st Street between Core Avenue and Colonial Avenue from 8 a.m. until sundown, for gas main renewal by Virginia Natural Gas. Two-way roadway traffic and pedestrian access will be maintained.

Campostella Road—Through mid-December, watch for alternating lane closures on Campostella Road between Berkley Avenue and Indian River Road for utility work.

Fenchurch Street—Through early December, traffic will be reduced to one-way, northbound on Fenchurch Street between Market Street and Charlotte Street. Southbound traffic will be detoured to Charlotte Street.

Indian River Road—Through January, watch for alternating lane closures on Indian River Road between Ford Drive and Campostella Road for utility work.

Lowery Road—Through late November, watch for intermittent signal work at the N. Military Highway and Lowery Road intersection.

W. Little Creek Road—Through mid-2013, watch for the closure of two lanes eastbound on W. Little Creek Road between Newport Avenue and Restmere Avenue and adjacent sidewalk for the Wards Corner Sewer and Force Main Project – Phase II.

Monticello Avenue—Through late November, watch for alternating lane closures at the northeast corner of Monticello Avenue at Princess Anne Road and at the southwest corner of Monticello Avenue at Princess Anne Road for signal installation work.

N. Military Highway—Through December, watch for alternating full and partial lane closures along [N. Military Highway and Azalea Garden Road and at Military Highway and Norview Avenue](#) through April for roadway improvement work.

E. Princess Anne Road—Through late November, watch for the closure of a vehicle lane and sidewalk on the southwest and northwest corners of E. Princess Anne Road and Monticello Avenue for traffic signal repair.

Tidewater Drive – Through late December, watch for the closure of a travel lane on Tidewater Drive between Pershing Avenue and Bapaume Avenue and Brambleton Avenue and I-264 on-ramp for roadway repairs.

Tidewater Drive – Through mid-November, watch for alternating lane closures on Tidewater Drive between Central Business Park Drive and Bancker Road for drain cleaning.

Wesleyan Drive—Through mid-2013, watch for alternating closures of all westbound lanes and adjacent sidewalks between Northampton Boulevard in Norfolk and Baker Road in Virginia Beach for the [Wesleyan Drive Improvement Project](#).
